

# Heavy Harrow Tines

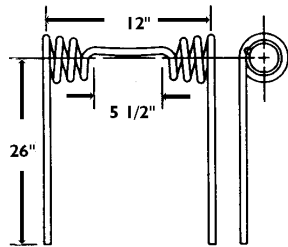

Built heavy for years of dependable service, these harrow tines are engineered to enhance control, combat compaction, provide a more consistent field finish and increase the performance and life span of the harrow bar.

# Harrow Tines with Carbide Tips

- Chromium Carbide Wear Point.
- Specifically designed for added performance and extend the wear to the existing harrow tine up to 4 times longer than the non-tipped tine in similar soil conditions.
- This tip offers a tapered design with no sharp edges, allowing better trash clean out.
- Fits Bourgault, Brandt, Degelman, Flexi-Coil, Gates, Riteway & Summers.

Part Number	Description
TIN4-007-CT	5/8" x 27" Harrow Tine w/Carbide Tips
TIN3-038-CT	9/16" x 26" Harrow Tine w/Carbide Tips
